COURSE SYLLABUS

Academic Year 2025 - 26, Semester – [Fall / Spring]

ENT 242 – Entrepreneurship 2

Suggested version · 30 October 2026 · for department review

1. COURSE INFORMATION

Course Title:	Entrepreneurship 2			
Course Code:	ENT 242			
Course Identity:	Validate & Launch · Semester 4 of the ENT journey			
Course Credit:	0-2-1			
Contact Hours:	Lec [00 Hrs], Lab/Non-Lec [30 Hrs] Total: 30 Hrs (2-hour lab weekly)			
Course Pre-requisite(s):	ENT 241			
Course Co-requisite(s):	None			
Course Category:	University Requirement (GE):		Program Requirement:	✓
Course Type:	Compulsory:	✓	Elective:	

2. FACULTY INFORMATION

Instructor Name:	This section will be filled at the time of offering of course.
Lecture/Lab Timings:	
Office Location:	
Office Hours:	
E-mail:	
Office Telephone:	
Course Website:	Course Website on Moodle

3. COURSE DETAILS

3.1 Course Description

Entrepreneurship 2 is the final course of the CUD entrepreneurship pathway (ENT 141, 142, 241 and 242). Students take the venture planned in ENT 241 to the market. They validate the opportunity and the unique selling proposition, position the venture against competitors, choose a UAE licensing and legal route, plan growth and the team, and audit every business-plan claim against evidence. At a Demo Day marketplace, teams test their offering with real visitors and decide whether to keep, change or pivot. The course ends with an investor panel, a founder journey portfolio across the four ENT courses and a final decision to continue, incubate, pivot or stop, with links to the CUD Incubator. Each week is a 2-hour lab.

3.2 Course Learning Outcomes (CLOs) and Alignment to GE Learning Outcomes (GELOs)

On successful completion of this course, the student will be able to:

Course Learning Outcomes (CLOs)		GELOs
CLO 1	Explain the value of innovation and entrepreneurship for their society and economy.	**2,3**
CLO 2	Reflect on the entrepreneurship journey based on the sequential development of your enterprising characteristics and entrepreneurial learning.	**1,5**
CLO 3	Validate a comprehensive business plan and pitch for a new business start-up.	**5,6,7**

4. TEACHING SCHEDULE

4.1 Weekly Lab Schedule

Week No.	Topic Covered in Class	CLOs	Reference/ Course Material	Course Assessment *(Please specify if the assessment is out-of-class)*	
				Assignment Type	Due Date*
1	**Entrepreneurship, Innovation & Competitive Advantage** Lab: **Founder Check-In**: revisit entrepreneurial motivation and competitive advantage; identify the venture's biggest remaining assumption.	1, 2	Burns (2022) Ch. 1		
2	**Opportunity Validation** Lab: **Opportunity Window Challenge**: Why now? What changed? What evidence demonstrates a real market opportunity?	1, 3	Burns (2022) Ch. 4; Bland & Osterwalder (2019)		
3	**USP Refinement** Lab: **USP Battle**: communicate the USP in one sentence; opposing teams challenge why a customer would choose the venture over alternatives.	3	Burns (2022) Ch. 5; Osterwalder et al. (2014)		
4	**Target Customer, STP & Competitors** Lab: **Positioning Challenge**: build a competitor positioning map and test whether the perceived market gap represents a genuine opportunity.	3	Burns (2022) Ch. 8; Nuseir & Aljumah (2020)	A1 Opportunity validation brief	Week 4
5	**UAE Licensing & Legal Structure** Lab: **Startup Setup Workshop**: compare appropriate licensing/legal routes and defend the route selected for the venture.	1, 3	Facchini et al. (2021); UAE government business-setup guidance		
6	**Growth & Commercialization: Franchising, Licensing, M&A, International Expansion** Lab: **Scale My Venture Challenge**: compare growth options and select one. Franchise Simulation: if the venture were franchised, what must be standardized, what does the franchisee receive, and how does the model make money?	1, 3	Burns (2022); Zarrouk et al. (2020)		
7	**Management Strategy** Lab: **Build Your Startup Team**: design the organization Now → First Hire → 10 Employees, defining roles, responsibilities and governance.	3	Burns (2022) Ch. 14 & 15		
8	**Validation Report** Lab: **Evidence Audit Workshop**: mark every	3	Bland & Osterwalder	A2 Validation report	Week 8

Week No.	Topic Covered in Class	CLOs	Reference/ Course Material	Course Assessment *(Please specify if the assessment is out-of-class)*	
				Assignment Type	Due Date*
	major business-plan claim as Validated / Partially Validated / Assumption and update the ENT 241 plan accordingly.		(2019); Burns (2022) Ch. 12		
9	**Demo Day Preparation** Lab: **Marketplace Design Challenge**: design the stall, customer interaction, market-testing method, feedback mechanism and individual roles.	3	Bland & Osterwalder (2019)		
10	**Prototype Stress Test** Lab: **Customer Objection Challenge + Full Dress Rehearsal**: peers act as sceptical customers and challenge price, alternatives, usefulness and trust.	3	Osterwalder et al. (2014)		
11	**Demo Day Competition — Marketplace** Lab: **Real Market Challenge**: teams run stalls, engage real visitors, demonstrate/test the offering and collect structured market evidence. CUD Incubator assessors take part where available.	1, 3	Field work		
12	**Demo Day Debrief & Venture Refinement** Lab: **Evidence → Decision Workshop**: analyse what customers did and said; decide Keep / Change / Pivot / Revalidate and revise the plan.	2, 3	Bland & Osterwalder (2019)	A3 Market evidence & decision	Week 12
13	**Investor Pitch Preparation** Lab: **Investor Speed-Dating**: repeated short pitches to mentors and peers, each round challenging market, business model, scalability or evidence.	3	van Werven et al. (2019)		
14	**Investor Pitch** Lab: **External Investor/Entrepreneur Panel**: show the venture and what changed because of market evidence; individual questioning follows.	3	van Werven et al. (2019)		
15	**Entrepreneurial Journey** Lab: **Founder Journey Portfolio**: map development across ENT 141 → 142 → 241 → 242, including mindset, failures, experimentation, pivots, evidence and personal development.	2	Lundmark et al. (2019)	A4 Investor panel + founder journey portfolio	Week 15
16	**Venture Continuation / Startup Pathway** Lab: **Continue, Incubate, Pivot or Stop**: final founder decision. Strong ventures connect with incubation, competitions or other university entrepreneurship support.	1, 2	CUD Incubator		

4.2 Lab/ Non-Lecture Schedule

This is a lab course: the weekly 2-hour lab runs the challenge listed for each week in 4.1.

5. TEACHING PEDAGOGY

The course is taught as one 2-hour lab each week (0-2-1). Each lab opens with a short concept from the readings and continues with one hands-on challenge (Section 4.1). Teams continue the venture planned in ENT 241 and test it in the real market at the Demo Day (Week 11).
External or CUD Incubator assessors, entrepreneurs and investors may take part in the Demo Day and the investor panel, within the scheduled lab time; this does not add contact hours and does not replace the lab.
Strong ventures are referred to the CUD Incubator, competitions or other university entrepreneurship support after the course.
Inclusive learning: Materials follow Universal Design for Learning: templates, short steps and sentence starters for every in-class challenge, and students may show their learning in writing, speaking or visuals. Individual adjustments follow CUD's student-support process.

6. TEXTBOOK/REFERENCE BOOK/COURSE MATERIAL

Textbooks (TB):

7. LEARNING RESOURCES

Course website on Moodle contains class announcements, lab guides, challenge templates, assignments and submission links. The CUD Incubator supports the Demo Day and venture continuation. Online materials support the labs; they do not replace classes, attendance or lab activities.

8. COURSE ASSESSMENT AND EVALUATION

The information concerning the appropriate distribution of grade weight amongst various assessment items and their corresponding linkage with the stated CLOs is provided in the following table.

Assessment Items	Grade Weight	Course Learning Outcomes (CLOS)

		(%)	1	2	3
A1	Opportunity validation brief (Week 4)	25	✓		✓
A2	Validation report (Week 8)	25			✓
A3	Market evidence & decision (Week 12)	25	✓	✓	✓
A4	Investor panel + founder journey portfolio (Week 15)	25	✓	✓	✓

9. ASSESSMENT METHODOLOGY

Four assignments of 25%, one after each block of study. Each one is built in the in-class challenges, so students work on it with the instructor present. Teams of 4–5 keep the same venture across ENT 241 and ENT 242; individual marks come from individual questions and peer evaluation.

A1 – Opportunity validation brief (Team, Week 4, 25%): Why now and what evidence shows a real market; the USP in one sentence, as defended in the USP Battle; and a competitor positioning map that tests the market gap.

A2 – Validation report (Team, Week 8, 25%): Every major claim of the ENT 241 business plan marked Validated / Partially Validated / Assumption, with its evidence; the chosen UAE licensing and legal route; the growth option; and the team plan Now → First Hire → 10 Employees. Up to 3000 words.

A3 – Market evidence & decision (Team, Week 12, 25%): Structured evidence from the Demo Day marketplace (what visitors did and said, objections, reactions to price), the Keep / Change / Pivot / Revalidate decision and the revised plan.

A4 – Investor panel + founder journey portfolio (Team pitch (Week 14), individual portfolio, Week 15, 25%): The venture pitched to an investor or entrepreneur panel, showing what changed because of market evidence, with individual questions; and an individual portfolio of up to 2000 words mapping the journey across ENT 141 → 142 → 241 → 242: GET2 test results, a ranked personal SWOT and a 3–5-year personal development plan, with reflection models and APA references.

Note: A student will lose 10% or more for non-compliance with group efforts (teamwork) and failing to meet tutor deadlines. No late project will be accepted. Exceptions for late evaluation are up to the discretion of the instructor.

10. COURSE REQUIREMENTS AND POLICIES

The students are required to fully understand and observe the following policies of the university.

10.1 Attendance Policy

Attending classes is compulsory in all courses. CUD Students will not be allowed to take the final examination if they are absent for 25% or more of the classes in a course. (Students should refer to their respective Department or School/Faculty for additional specific program-related information.)

a. When a student has been absent for 10% of the course an absence reminder would be sent by email.
b. When a student has been absent for 20% of the course a second absence reminder would be sent by e-mail
c. When a student has been absent for 25% of the course a notice of Failure for Non-Attendance will be sent by email and grade "FA" with Grade Point of 0.0 will be awarded.

A student with a verifiable and legitimate reason for missing a class (e.g., hospitalization) may request his instructor not to count such an absence towards the 25%. Such excusable absences must be noted in the Course File Attendance Report.

Should an acceptable explanation for a student's absenteeism be available, the Dean/Designated Representative of the Faculty concerned may consider the student's withdrawal without penalty from the particular course. A withdrawal without penalty or any other alpha grade under these circumstances may only be considered with the consent of the Registrar.

10.2 Incomplete Work Policy

Students whose course work is at a passing level but who for verifiable reasons beyond their control are unable to finish course work by the end of a term (or the specified end of a course) may be granted a grade of "Incomplete".

The "I" is not intended to be a permanent grade. It is only a temporary acknowledgment of a legitimate reason for granting a one-time, limited extension to the time normally allowed to complete all course requirements.

Students have up to 12 calendar months after the scheduled end of the course to complete required additional work as determined by the teacher who assigned the "I", and to thereby qualify for a passing grade.

After 12 calendar months, outstanding "I" grades are converted to "F".

Thereafter, the student must repeat the course in order to achieve a passing grade.

The number of "Incomplete" courses allowed per semester is established by the School. Please contact the School for further information.

NOTE: An Incomplete grade for a pre-requisite course must be completed before the student is allowed to proceed to the higher-level course unless otherwise approved by the appropriate Academic Administrator (Dean or Designate).

10.3 Academic Integrity

Cheating refers to attempting or using unauthorized materials or obtaining unauthorized assistance in an academic activity, including all types of examinations or evaluations. This may include impersonating another student; looking at another student's materials; using unauthorized

notes/books/calculators; talking to other students; using communication devices such as mobile phones or any Bluetooth devices.

Plagiarism includes, but is not limited to, representation of others' work, lending unauthorized assistance, and using strategies or processes with the aim of attaining dishonest grades on tests or examinations. Students may not submit any material created by or acquired from another person or business. Plagiarizing any type of course work will not be tolerated. All instances of plagiarizing shall be documented, presented to the Head/Dean of the program and to the Registrar, and recorded in the student's file. The maximum permissible similarity index limit is 20% for the assignments required to be submitted through Turnitin.

Any violation of the academic integrity policy is a serious offence which will be sanctioned as per the Academic Integrity Policy published in the Student Handbook. Please refer to the Catalogue for further information on student Academic Integrity.

11. GRADING SYSTEM

The University uses the relative grading system which is based on a four-point scale. An overall grade will be assigned on the following grading scale.

Percentage Score	Alpha Grade	GPA Points	Percentage Score	Alpha Grade	GPA Points
90-100	A+	4.0	60-64	C	2.0
80-89	A	3.8	55-59	D+	1.5
75-79	B+	3.5	50-54	D	1.0
70-74	B	3.0	0-49	F	0.0
65-69	C+	2.5			

The students must also read and comprehend the full version of the "Grading System" of the University which is published in the relevant Catalogue.

12. GRADING RUBRICS FOR ASSESSED ELEMENTS

Grading Rubric for A1: Opportunity validation brief (25 marks)

Criteria	Poor Level	Acceptable Level	Excellent Level
Why now: evidence of a real market (8 marks)	No evidence.	Some evidence, partly assumed.	Specific change and evidence from customers or data.
USP in one sentence (7 marks)	Unclear.	Clear but not distinctive.	Sharp, tested in the USP Battle, beats alternatives.
Positioning map and market gap (7 marks)	Missing.	Map drawn; gap not tested.	Real competitors; gap tested.
Clarity and sources (3 marks)	Unclear.	Mostly clear.	Clear, referenced.

Grading Rubric for A2: Validation report (25 marks)

Criteria	Poor Level	Acceptable Level	Excellent Level
Evidence audit of the ENT 241 plan (9 marks)	Audit missing.	Most claims marked; thin evidence.	Every major claim marked and backed by evidence.

Licensing and legal route (5 marks)	Missing.	Route named, weak reasons.	Appropriate UAE route chosen and defended.
Growth option and team plan (6 marks)	Missing.	Partly covered.	Growth option justified; team plan from first hire to 10 employees.
Updated plan and writing (5 marks)	No revision.	Some revision; some errors.	Plan revised from the audit; professional, APA.

Grading Rubric for A3: Market evidence & decision (25 marks)

Criteria	Poor Level	Acceptable Level	Excellent Level
Market test design (5 marks)	No method.	Method partly clear.	Clear method, roles and feedback tools.
Structured market evidence (9 marks)	Little evidence.	Evidence collected, little structure.	What visitors did and said, objections and price reactions, organised.
Decision: keep, change, pivot, revalidate (7 marks)	No decision.	Decision weakly linked.	Decision follows from the evidence.
Revised plan (4 marks)	None.	General changes.	Concrete changes and next tests.

Grading Rubric for A4: Investor panel + founder journey portfolio (25 marks)

Criteria	Poor Level	Acceptable Level	Excellent Level
Pitch: what changed because of evidence (7 marks)	No evidence.	Some evidence; story unclear in places.	Evidence-led story, viable model, clear ask.
Individual Q&A (5 marks)	Cannot answer.	Partial answers.	Precise, confident answers.
Founder journey across ENT 141–242 (6 marks)	Missing.	General account.	Specific turning points, failures and pivots, with reflection models.
GET2 test, ranked personal SWOT and development plan (7 marks)	Missing.	Present but generic.	Linked to evidence; realistic 3–5-year plan; APA.

13. VERIFICATION

(i) I verify that the contents of this document are up to date.

Instructor's Name and Signature Date

(ii) I have reviewed this course syllabus and state that it complies with CUD policies and guidelines.

_____ _____

Name and Signature of Department Chair/Program Coordinator Date
